

FIRM PROFILE

BACKSTORY

We are a "Full Service" firm, providing Professional Architectural Services to our clients. We are open-minded and flexible in our thinking and in our service delivery, customizing each project to our clients' needs.

The practice was established in 1980 by Larry N. Lisbona as LNL Associates/Architects, P.A., and has been in continuous operation in Kansas ever since. In February of 2004, the firm changed its name to Lisbona Architects, Inc.

SERVICES

Architectural Programming / Needs Assessment
Feasibility Studies, including cost estimating
Master planning, both site and building
Preliminary Design, Design Development
Construction Document preparation
Bidding / Negotiation and Construction Administration services
Environmental Graphics, Signage and Wayfinding
Visual Communications, Branding and Collateral Design
Presentation Graphics and 3-D Model Production
Project representation at public forums with clients / neighborhood groups
Planning Commission, etc.

Additional services include structural, mechanical, electrical, plumbing, acoustics and fire protection engineering design, which are provided by licensed professional consulting engineers selected per job based upon expertise related to the specific job requirements, and availability to meet project time schedules.

CLIENTS

Our clientele includes public entities such as City, County, and State Governments, and a volume of private sector companies. Our diverse work history includes Shopping Centers, Banks/Financial Institutions, Medical Clinics/Health Care, Office Buildings, Schools, Industrial and Manufacturing Facilities, Restaurants, Interior Space Planning, Churches and Historical Renovation Projects.

LARRY N. LISBONA Principal & President

BACKSTORY

Larry Lisbona graduated from the University of Kansas with a Bachelor of Environmental Design and a Bachelor of Architecture. He is licensed in several states and is NCARB Certified. His 35 years of experience with various project types makes him a well-rounded architect who knows the project details from start to finish. Larry has the ability to connect with his clients and to quickly resolve their needs.

Complimentary to his corporate life as an architect, Larry volunteers as an Advisor to the Lutheran Church, through the St. Louis based office of LCEF. In this capacity, Larry covers the entire State of Kansas as a volunteer to assist Lutheran Churches with building, planning, care and construction project needs. His service ranges from answering simple questions to assisting the church in how to plan and begin an actual building project.

Larry is proud of his long term commitment to Kiwanis International where he just completed his second term as President of the Olathe Sunrise Kiwanis Club. Kiwanis International is a service organization which focuses on the needs of children everywhere.

CHRIS JOHNSON Designer & Senior AutoDesk Technician

BACKSTORY

Chris graduated from Kansas State University with a Bachelor of Architecture degree. As part of his educational experience, he traveled to Europe to study classic Architectural History.

A talented designer, Chris joined the firm in 1993 and prides himself on working with each client to create a unique and successful design that meets each client's needs. Chris was also a key component in the firms' transition from manual hand-drafting to computer aided drafting and design. He is responsible for maintaining drawing and specification standards used throughout the office.

Chris has overseen numerous architectural and interior projects. His knowledge of building codes and accessibility requirements help to move each project forward from the conceptual design phase through construction. His experience with furniture design & construction also enhance Lisbona Architects ability to provide custom casework and interior spaces which exceed the client's expectations.

PROFESSIONAL OVERVIEW

21 years of professional experience
Kansas State University, Bachelor of Architecture
Extended architectural studies in Italy
University of Missouri-Kansas City Urban Study

AFFILIATIONS

Northland Habitat For Humanity
Linden Baptist Church

BRYAN LISBONA Graphic Designer / Creative Consultant

BACKSTORY

Bryan graduated from the University of Kansas with a Bachelor of Fine Arts degree in Design, with a concentration in Graphic Design. As part of his educational experience, he was honored to receive a design scholarship for his work which allowed him to study more extensively the various disciplines of art and design. His studies focused on Visual Communication, Architecture and Printmaking.

As a member of AIGA, the professional association for design, Bryan stays active in the design community through the many outlets the organization offers to its members. The Kansas City chapter of AIGA has recognized him multiple times for his work through juried competition. Bryan has also received international exposure on the pages of PRINT Magazine and Graphis.
